

Women in Emergency Medicine Around the World Symposium

3pm – 6pm 16 December 2021 Universal Time Coordinated

**Brought to you by the International Federation for Emergency
Medicine and Canadian Association of Emergency Physicians**

In our next edition of our around the world event series, leading international speakers will address the issues facing women emergency medical care workers in different regions of the world, what needs to change, and what you can do in your own workplace to take steps towards gender equality.
